The Audit Committee noted that though the Company is not directly a party to the Scheme, however, consequent to Scheme 1 coming into effect (which is one of the preconditions to the Scheme becoming effective) the Company would stand amalgamated with ODCL and it shall stand dissolved without winding up and the shares which ODCL would issue to the shareholders of the Company pursuant to Scheme 1 shall be listed on the BSE Ltd. and National Stock Exchange of India Ltd. Therefore, it would be incumbent upon the Company that the Audit Committee of the Company gives its recommendation to the proposed Scheme. Thus, after detailed consideration of the aforesaid documents and discussions on the same, the Audit

### 3. Rationale of the draft Scheme

The Audit Committee at its meeting held on 5<sup>th</sup> November, 2016 noted the background and rationale for the said draft Scheme. ODCL, DBL and DCBL belong to the Dalmia Bharat group ("**DB Group Companies**"). This Scheme is intended to restructure these companies and consolidate their business in a manner which is expected to enable better realisation of potential of their businesses, yield beneficial results and enhanced value creation for the said companies, their respective shareholders and stakeholders. The rationale for the Scheme is set out below:

- (i) The arrangement and amalgamation will result in financial resources of ODCL, DBL and DCBL being efficiently pooled, leading to centralised and more efficient management of funds, greater economies of scale and a bigger and stronger resource base for future growth, which are presently divided and are getting dissipated amongst different DB Group Companies.
- (ii) The arrangement and amalgamation will result in simplification of the corporate structure of the DB Group Companies with one listed company controlling all the cement companies in the group.
- (iii) The arrangement and amalgamation will result in consolidation of businesses and operations of the DB Group Companies, located in different parts of the country, thereby enabling the group to derive benefits of geographical diversification.
- (iv) The arrangement and amalgamation will provide synergistic integration of the business operations of DB Group Companies thus enabling better operational management with greater focus.
- (v) Synergies arising out of consolidation of alike and supporting businesses through the arrangement and amalgamation will lead to (a) alignment of interest of all stakeholders; (b) improved earnings and cash flow of DCBL as the Transferee Company and (c) improved alignment of debt repayments with cash flow.
- (vi) DCBL as the Transferee Company will have better leveraging capability due to its enlarged net worth base and increased business capability to offer a wider portfolio of products and services to its customers by virtue of its diversified businesses, enlarged resource base and deeper client relationships, thus improving its ability to effectively exploit the growing market potential and enhanced business prospects for the group.
- (vii) The arrangement and amalgamation will bring about simplicity in working, reduction in various statutory and regulatory compliances and related costs, which presently have to be duplicated in different entities, reduction in operational and administrative expenses and overheads, better cost and operational efficiencies and it will also result in coordinated optimum utilization of resources.
- (viii) The arrangement and amalgamation will result not only in consolidating and improving the internal systems, procedures and controls but will also bring greater

301

management and operational efficiency due to integration of various similar functions presently being carried out in each individual entity within the DB Group Companies such as information technology, human resources, finance, legal and general management, and this will lead to the organization becoming more efficient and capable of responding swiftly to volatile and rapidly changing market scenarios.

- (ix) The arrangement and amalgamation will streamline the decision making process, help in better utilization of human resources and will also provide better career opportunities to employees.

Thus, the Scheme, as envisaged, involving arrangement and amalgamation would enable seamless access to strong business relationships, closer and better focused attention being given to the businesses which would get integrated, aligned and streamlined, leading to achievement of their full business and growth potential.

#### 4. Recommendation of the Audit Committee

The Audit Committee, after perusal, deliberation and review of the provisions of the draft Scheme along with the Valuation Report, Fairness Opinion and other documents listed above, finds the transactions as listed in the draft Scheme, along with the appointed date given thereof, the amalgamation and the other arrangements provided therein including the share exchange ratio for DBL Amalgamation and consideration for ODCL Undertakings' Slump Exchange, to be in the interest of all the companies involved, their shareholders and other stakeholders and is therefore, also fair. Accordingly, the Audit Committee unanimously recommends the draft Scheme to (i) the Board of Directors of the Company for its approval and for favorable consideration and (ii) be filed with SEBI, the BSE Limited and National Stock Exchange of India Limited for their favorable consideration.
